

# HESCO's Line Card

## HESCO Primary Manufacturers

- Acme Electric
- ACP Thin Manager
- Adaptive Micro Systems
- Aeros USA
- Allen-Bradley
- Allied Wire & Cable
- AMCI
- Appleton
- Belden
- BRady
- Bussmann
- Dynics
- Edwards Signaling
- Electri-Flex
- Erico - Eriflex
- Federal Signaling
- General Cable
- Grace Engineered Products
- Hammond Power Solutions
- Hardy Provest Solutions
- HMS
- Hoffman
- Hubbell
- JAKA
- Killark
- Lapp USA
- Leeson
- Mersen
- mk North America
- MTE
- OZ Gedney
- Panduit
- ProSoft Technology
- Racor
- Real Time Automation
- Remke
- Rockwell Automation
- Roxtec
- Sola HD
- Spectrum Controls
- Stratus Technologies
- SyTech Inc.
- Thomas & Betts
- Versabar
- Wittenstein / Alpha

# Solutions for Every Project

## Communications

Gateways  
Protocol Converters  
Switches

## DCS, SCADA, Process

Instrumentation  
Metering  
Scales

## Drives & Motors

Ac/DC Variable  
Frequency Drives  
Industrial Motors  
Gear Motor

## Connectors, Cord, Grips, Conduit

Cable Glands  
Flexible Conduit  
Grips

## Enclosures

Custom Enclosure  
Modifications  
Explosion Proof  
Junction Boxes  
Mild & Stainless Steel  
Non-Metallic  
Thermal; AC, Heaters, Fans

## Electrical Supply

Wire and Cable  
Fuses  
Metal Conduit  
Lugs

## Industrial Control

Contractors  
Push Button  
Relays  
Signaling Devices

## Industrial Computers

Modules & Work  
Stations  
Monitors  
Rackmount

## Motion Control

Actuators  
Encoders  
Safety Motion Control  
Servo Drives & Motors

## Motor Control

Motor Control Centers  
Manual Motor Starters  
Starters

## Power Quality

Filters  
Line Conditioners  
Reactors

## Power Supplies, Transformers, UPS

Power Supplies  
Transformers  
Uninterruptible Power  
Supply

## Programmable Controllers

PLCs  
PACs  
Micro Control Systems  
Process Controllers

## Networking Services

Ethernet Switches  
Gateway & Linking  
Devices  
Wireless Radio

## Sensors

Proximity Sensors  
RFIDS  
Safety Sensors  
Switches

## Software

Analytics  
Automation/HMI  
Design Software  
Manufacturing  
Intelligence

## Safety

Safety Sensors  
Switches  
Voltage Test Station  
Safety PLCs

## Wire Management

Cable Tray  
Cable Ties  
Wiring Duct  
Wire Throughs  
Wiring & Cable Assemblies

## Visualization & HMI

Machine Interfaces  
Operator Interfaces

## Tools

Bolt & Cable Cutters  
Fiber Optic Instruments  
Hydraulic Tools  
Testers & Measurement

# Service Offerings

Training – Networking – Safety – Optimization

## 1 Workforce Support & Training

With the help of Rockwell Automation, we are able to reduce the impact of skill gaps within your operation. We do this through:

**TechConnect** – Rockwell Automation technical support on-demand

**Training** – We offer a number of different options for training (in-person and virtually)

**Workforce Augmentation** – We're an extension of support / maintenance departments to fill any gaps and keep production running

## 2 People & Asset Safety

HESCO's safety services address hazardous-energy control, electrical safety, and machine safety.

**Hazardous Energy Control** – Lockout / tagout (LOTO)

**Electrical Safety** – Arc Flash Analysis

**Machine Safety** – Conformity audits, guarding evaluations, safety assessments, team-based risk assessments, design, install & validation

## 3 Networking and Industrial Cybersecurity

**Networking** – Focused on helping assess, design, implement, and manage OT environments. A modern, secure, and reliable information infrastructure connects assets, people, and information, which creates opportunities to improve operations performance.

**Industrial Cybersecurity** – We protect the integrity and availability of complex automation solutions. Our industrial security services help to effectively assess, implement, and maintain security within operations.

## 4 Asset & Plant Optimization

### Are You Facing...

- Aging, obsolete, or unsupportable systems?
- High maintenance, repair, and operations (MRO) costs?
- Underperforming or unreliable assets?

**Inventory Services** – Transform inventory management into a lean, cost-saving machine

**Asset Modernization** – Identify and reduce obsolescence risk and modernize information-enabled technology

**Asset Performance Services** – Accelerate productivity and take assets to a new level
